

MANJUNATH NAIK

FULL STACK DEVELOPER | MERN STACK DEVELOPER | PYTHON DEVELOPER

PROFESSIONAL SUMMARY

Python Backend Developer with hands-on experience building backend applications, REST APIs, database-driven systems, and AI/ML-powered applications using Python, Django, Flask, SQL, and MySQL. Experienced in developing scalable backend services, implementing business logic, integrating frontend applications with REST APIs, and optimizing database operations. Strong understanding of Object-Oriented Programming, DBMS, REST architecture, MVC, API development, debugging, testing, and Git-based development. Experienced in applying Python to machine learning and computer vision projects, with a strong interest in building scalable backend and AI-driven applications.

PROFESSIONAL EXPERIENCE

Software Engineer Intern | Vidita Solutions Mangalore, Karnataka, India, Sep 2026 - Present

- Developing backend modules using **Python** and **MySQL** following Object-Oriented Programming principles.
- Designing and integrating **REST APIs** for application communication and frontend-backend integration.
- Implementing backend business logic and database operations using Python and SQL.
- Writing and optimizing SQL queries for efficient data retrieval and manipulation.
- Debugging, testing, and optimizing backend functionality to improve application reliability.
- Collaborating with development teams using **Git** and participating in code reviews.
- Working within Agile development practices including sprint planning and daily stand-ups.
- Using API testing and debugging practices to validate backend functionality.

Assistant Teacher | SDM Institute Of Technology Ujire Ujire, Karnataka, India, Sep 2023 - Jul 2024

- Interacted with students and faculty to understand requirements and improve delivery of technical content, similar to stakeholder engagement.
- Designed structured workflows for lab sessions, assignments, and evaluation processes, improving operational efficiency.
- Prepared detailed documentation including instructional guides, FAQs, and structured learning materials.
- Coordinated between academic teams to streamline execution of curriculum and lab activities.
- Provided technical guidance in Python, databases, and system design concepts.

Software Engineering Intern | Contriver Mysuru, Karnataka, India, Aug 2021 - Oct 2021

- Developed backend modules using Python and MySQL following OOP principles.
- Designed and integrated REST APIs for application communication.
- Wrote SQL queries for data retrieval and manipulation.
- Performed debugging, testing, and code optimization.
- Collaborated in Agile development teams and participated in code reviews. Technologies: Python, MySQL, Agile, Git

TECHNICAL PROJECTS

DEEP LEARNING BASED CONTACTLESS TICKETING SYSTEM FOR METRO STATIONS USING FACIAL RECOGNITION | Developer Vellore, Tamil Nadu, India, Dec 2025 - Present

- Developed a Computer Vision based facial recognition system using CNN architectures for contactless metro ticketing.
- Built image preprocessing and feature extraction pipelines for real-time face identification.
- Designed REST APIs using Python for authentication and ticket validation workflows.
- Integrated React.js frontend with backend services for real-time user interaction.
- Optimized model inference performance and system scalability for concurrent users.
- Applied deep learning techniques for image classification and identity verification.

PERSONAL INFORMATION

- 7022510758
- manjunath.naik5424@gmail.com
- <https://www.linkedin.com/in/man0412/>
- <https://manjunath-naik-portfolio.netlify.app/>
- Mangalore, Karnataka, India

TECHNICAL SKILLS

- Programming Languages:** C, C++, Python, Java, JavaScript, SQL
- Web Technologies:** HTML5, CSS3, React.js, Angular(Basic), JavaScript
- Backend & APIs:** Django, REST APIs, Python, API Integration
- Databases & Storage:** MySQL, SQLite, Firebase, Vector Database (Academic Knowledge), DBMS, SQL Queries
- Tools:** Git, GitHub, Docker(Basic), VS Code
- Concepts:** Data Structures, OOP, Exception Handling, Multithreading, DBMS, Micro Services, MVC Architecture
- Testing:** Unit Testing, Debugging, Test Case Development
- Soft Skills ::** Communication, Stakeholder, Coordination, Problem Solving, Documentation, Familiar with CRM/ERP concepts and digital business workflows.

EDUCATION

Master of Technology (M.Tech) in Computer Science and Engineering | Vellore Institute Of Technology, Vellore
Vellore, India, Jul 2024 - May 2026
Grade - 8.4

Bachelor of Engineering (B.E) in Computer Science and Engineering | SDM Institute Of Technology, Ujire
Ujire, India, Aug 2018 - Jul 2022
Grade - 6.7

CERTIFICATIONS

AWS FOR BEGINNERS, Great Learning
Aug 2025

Global Navigation Satellite System, ISRO
Oct 2024

Tech Stack : Python, Django, React.js, CNN, RESTful APIs, MySQL, SQLite, Machine Learning, Git

Deep Learning-Based Facial Recognition System for Secure Cashless Payments In Retail Chain Markets(Apply for Patent) | Developer

Vellore, India, Jul 2025 - Nov 2025

- Developed scalable backend APIs using Spring Boot. Implemented secure authentication and authorization.
- Designed relational database schema using PostgreSQL. Integrated React frontend with backend APIs.
- Performed debugging, testing and API optimization. Followed MVC architecture and REST principles.

Tech Stack: Python, Django, React.js, CNN, RESTful APIs, Machine Learning,TDD, Git

AI Travel Recommendation System (Personal Project) | Developer

Vellore, Tamil Nadu, India, Oct 2024 - Jan 2025

- Developed dynamic web application with database integration.
- Designed SQL-based data storage and retrieval mechanisms.
- Implemented API-based communication between frontend and backend.

Tech Stack: Python, ML, Flask/Django, APIs.

Crime Rate Prediction Application Platform Using Machine Learning(Published Research) | Developer

Vellore, India, Aug 2024 - Jun 2025

- Published research focused on analyzing crime data using machine learning techniques
- Applied data visualization and predictive modeling to identify patterns and trends
- Contributed to data-driven decision-making approaches in public safety

Conference:

- Excellent Paper Award – ARSSS (2025)

ADDITIONAL STRENGTHS

- strong attention to code quality.
- ability to work independently and in team environments.
- Strong interest in building AI-driven consumer platforms in travel and personalization domains.

JavaScript and PHP Programming Complete Course, Udemy

Jul 2024

The Complete Python 3 Course: Beginner to Advanced, Udemy

Aug 2024

ACHIEVEMENTS & AWARDS

Excellent Paper Award , ARSSS

Aug 2025

- 3rd International Conference on Multidisciplinary Research (ARSSS, 2025) for innovative ML research.

Cent percent Attendance Award, VIT Vellore Mar 2025

- Demonstrates commitment and reliability.
